ClassWorks exposes AppleWorks!

The best way for you to introduce AppleWorks® to your class is with *ClassWorks—AppleWorks for the Classroom*.

Students will unmask all of AppleWorks' offerings through worksheets, quizzes, and overhead transparencies. Challenge your students to apply probability, correlation, and graphing in the math curriculum; analyze the 1988 Olympic results; and master the operations of a fast-food restaurant.

Everything you need to teach AppleWorks is included in *ClassWorks*, even a site license so you can share the materials with everyone in your school. *ClassWorks: AppleWorks for the Classroom* sells for \$50 plus shipping.

**Bring out the best in AppleWorks—
ClassWorks: AppleWorks for the Classroom.**

To order from ISTE, see page 56.
